## What Others are Saying

*We should be thanking YOU!! This curriculum is wonderful and so very helpful in things that are not taught in any other curriculum. I sing your praises to every life skills teacher I meet. I will recommend this program to everyone! Thanks for taking the time to share with us!*  
Kelly G., High School Sp. Ed. Teacher  
Centennial School District, PA

*I have got to say HRC has made our ability to teach lessons remotely so much better! The students love the video role plays and have really shown growth/learning, especially with how to respond to bullies and self-care. We have definitely had quite the challenge with differentiation between friends and acquaintances... I can see why using this over a span of many years is important.*

Alicia A., School Psychologist  
Naperville North High School, IL

*I have to thank you for your amazing training. I have been teaching in Islip since 1998 and as a PE teacher since 2002. Your training ranks up in my top three in the past 20 plus years here. I took away so much information and even fostered conversation with my own family about certain issues.*

Patricia W., Sp. Ed. Teacher  
Islip Public Schools, NY

*We both agreed that yesterday was hands down the most valuable and relevant experience we have ever received in a Professional Development Training! It is evident the curriculum was created by individuals who have worked in the classroom and understand the population and that is something you don't see every day.*

*Mallory and Domenica, two HS Sp. Ed. Teachers  
West Orange High School, NJ*

## Developed by Educators for Educators

*I was hesitant in setting up a virtual presentation since I didn't want to listen to a sales pitch. Rob and Jen are real people who use the Healthy Relationships Curriculum in their school. They are not salespeople but real educators that truly care about the students!*

*That was the selling point for me!*

*Lynda S., Coordinator of AVAC/Trans. Services  
Joliet Twp. High School, IL*
