

# Healthy Relationships Curriculum

This unique program was designed around evidence-based practices (EBPs) and interventions taught and used by educators and counselors in schools and organizations nationwide. Research has shown that EBPs are effective when taught concretely and consistently. Our team developed this simple chart to line up several of the Healthy Relationships Curriculum features with Evidence-Based Practice to help achieve positive outcomes and results.

Curriculum Feature	Evidence Based Practice
Over 180 Streaming Videos	Modeling and Demonstration
Poster Box, Visuals	Visuals for instruction
Sensory Checklist	Accommodations and/or adaptations for sensory needs
Pre/Post Testing	Use of pre/post testing to measure learning and collect data about student growth
Outcome Measurement Tools	Data collection to inform instruction
Visual Checklists	Visual supports
Home Supplements in Every Lesson	Repetition and Practice
Scripted Role Plays & Demonstrations	Opportunities for Supported Practice (I do - We do - You do)
Digital Check for Understanding Quizzes	Formative Assessment to Inform Assessment
Measure Retention of Skills	Use of data to inform instruction
Comprehensive Professional Development	Formalized Professional Development to ensure fidelity in Instructional delivery
Ongoing Consultation	Formalized Professional Development to ensure fidelity in Instructional delivery
Continuity of instruction across grade levels	Use of routine procedures and methodologies
